

Established in the early 70s, **ZILIO INDUSTRIES Spa** is an Italian holding of Manufacturers with over 40-years' experience with Headquarters in Friola di Pozzoleone (VI, Italy). The Holding is specialized in manufacturing expansion, solar and pressure tanks with replaceable bladder, flat expansion vessels, hydraulic groups, die-steel and stamping processes. With a production capacity of more than 2 million items per year, our products and processes are certified according to the International quality standards (TUV UNI ISO 9001:2015) and products comply with European directive PED 2014/68/EU. We operate in more than 95 markets worldwide.

Our Mission is to design, produce and sell high quality products and components suitable for several ranges of application in HVAC, Solar and pressurization systems.
